**EVERYCAMPUS UNITES MINISTRIES, SEEKS REVIVAL ON COLLEGE
CAMPUSES ACROSS THE NATION**

*Shared Vision Seeks to See All 4,948 United States College Campuses Prayer Walked
in 2019*

ATLANTA—September 12, 2019—[EveryCampus](#), a collaborative venture among multiple ministries, is seeking to mobilize prayer and gospel movements to reach every campus in the country. Through uniting the Christian community, ministries and students with a shared vision, EveryCampus hopes to pursue a revival of God on the nearly 5,000 colleges and universities in America.

EveryCampus was created in May 2017 by the leaders of [Cru campus ministry](#) and [InterVarsity Christian Fellowship/USA](#) during a meeting to explore ways to combine efforts and establish gospel communities. Through its digital, movement-accelerating platform and resources, the coalition of like-minded churches and organizations have launched a campaign to mobilize prayer walks on every campus of the US as a first step toward seeing gospel communities started across the country. The growing coalition currently includes more than 20 partners, ranging from national campus-level ministries to large-scale event organizations.

“When ministries come together with a shared vision to influence the kingdom for Christ, amazing things can happen,” said York Moore, Executive Director of Catalytic Partnerships for InterVarsity. “We firmly believe that covering every campus in prayer will spur gospel community growth among colleges and universities. Since the EveryCampus movement began, we’ve watched God move in extraordinary ways and we’re excited to continue seeing that as we work toward our goal.”

The EveryCampus online platform offers users a wide variety of resources to start new gospel movements on campuses. Assets include an interactive map of every campus in

the country, the ability to track progress of established gospel movements, guides for prayer walking, and more.

“EveryCampus brings us together around something that is at the very heart of God — to see students experience a relationship with Him,” said Mark Gauthier, Executive Director of the U.S. Campus Ministry. “Cru is excited to work more intentionally with other student ministries and the larger Christian community to launch gospel movements on every campus so we can reach every student with the gospel.”

Of the 4,948 unique colleges and universities EveryCampus has identified in the United States, more than 2,253 have already been prayer walked and more than 2,695 still need to be prayer walked.

“We believe this is a new spiritual season in America,” Moore said. “The data and technology we’ve been able to utilize and offer to students, pastors, ministry leaders and Christians in our country has revolutionized the way we’re able to connect with one another. It is our hope that through these tools and God’s providence, we’re able to establish a thriving gospel movement on every campus.”
